Glover Atrium

More than a residence, Glover Atrium is a sanctuary where architecture, nature, and refined living come together in perfect harmony. Positioned along the prestigious Glover Road in Old Ikoyi, this exclusive collection of residences has been thoughtfully conceived around the principles of space, natural light, and biophilic design, creating homes that inspire a healthier and more balanced way of life.

Comprising just 12 exceptional residences—8 luxury maisonettes and 4 signature penthouses—Glover Atrium offers an intimate, low-density community where privacy and exclusivity are intrinsic to everyday living. Expansive interiors, generous floor-to-ceiling glazing, open-plan layouts, and carefully

integrated green spaces allow every home to breathe, blurring the boundaries between indoor comfort and the natural environment.

Its location is equally remarkable. Set within one of Lagos' most coveted residential enclaves, Glover Atrium is moments from Saint Saviour's School, Ikoyi Club 1938, Lagos Polo Club, Banana Island, and the commercial corridor of Alfred Rewane Road. Fine dining, luxury hospitality, embassies, premier healthcare, and Victoria Island's financial district are all within effortless reach, offering residents the rare privilege of serene living without sacrificing urban convenience.

In a city defined by constant movement, Glover Atrium offers something increasingly rare—a

—a home that restores. Here, nature is not an afterthought but an integral part of the architecture, transforming everyday living into an experience of calm, wellness, and understated luxury.

Glover Atrium is more than an address. It is a destination for those who appreciate timeless design, exceptional craftsmanship, and the enduring value of one of Ikoyi's most distinguished locations.
